

Hyundai Syscomm

HYUNDAI SYSCOMM, a spin-off company from Hynix Semiconductor (former Hyundai Electronics) in 2001 is the leading company in CDMA mobile telecommunication system business. We have the various mobile system solutions based CDMA technology: CDMA2000 1X/1XEV-DO, CDMA WLL, CDMA450 and Wireless PBX. Our overseas branches are located in USA, India and China and have supplied the systems worldwide. HYUNDAI SYSCOMM is ready to take a fresh approach meeting rapidly changing 21st century telecommunication market. As enhancing the value of the company we will be in the forefront of the world communication industry.
