

LSI Logic

LSI Logic Corporation is a leading designer and manufacturer of communications, consumer and storage semiconductors for applications that access, interconnect and store data, voice and video. Founded in 1981, LSI Logic pioneered the ASIC industry and today is focused on providing highly complex ASIC, ASSP (Application Specific Standard Products) and RapidChip® Platform ASIC solutions to its global customers. LSI Logic brings to its vertical markets a complete portfolio of industry-standard intellectual property (IP) building blocks, design methodology, advanced packaging, the expertise of more than 2,000 engineers and world-class manufacturing facilities, augmented by strategic foundry relationships.
